Capital at risk. Past performance does not predict future returns.

This bulletin must be read in conjunction with the Key Information Document and Terms and Conditions of your Red Rose Assurance Shariah ISA.
Nothing in this document constitutes financial advice.

Fund objective

The Fund aims to track as closely as possible the performance of the Dow Jones Islamic Market Titans 100 Index.

Investment strategy

The Fund is 100% invested in the HSBC Islamic Global Equity Index Fund.

The Fund comprises of companies in developed and emerging markets across the world. In aiming to track the Index, the Fund is not actively managed and invests in the shares of companies in the same proportion as in the Index.

The Fund will only invest in the shares of companies that meet Shariah compliant principles as interpreted or approved by the Shariah Committee who monitor the Fund throughout the year and issue an annual Shariah certificate on the Fund's compliance with Shariah principles.

Risks

The value of investments and any income from them can go down as well as up and investors may not get back the amount originally invested.

The Fund invests globally and is therefore exposed to the risk of changes in foreign currency exchange rates which may effect the value of your investment.

While the Fund seeks to replicate index performance there is no guarantee that it's performance will exactly match that of the target index at any given time.

Where approved by the Shariah Committee, the Investment Managers of the Fund can invest in derivatives, the value of which derive from, and are dependent on, the value of underlying assets.

Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the value of their underlying assets. The Fund does not currently invest in derivatives.

Shariah compliance

The Fund does not invest in alcohol, arms, tobacco and gambling industries. It does not invest in pork farming or processing companies. There is a ban within the Fund on interest (Riba), uncertainty (Gharar) and speculation and gambling (Maisir).

Where the independent Shariah Committee determine amounts added to the Fund derive from prohibited practices, they will be deducted from the Fund and paid to charities approved from time to time by the Shariah Committee.

The Shariah Committee will report to the HSBC Fund managers annually on compliance with Shariah investment principles.

Capital at risk. Past performance does not predict future returns.
